
Main Engine Mounting & front cockpit support tube

Posted by jon - 2007/12/27 15:35

Manual Reference: Page 008

Brief Description: Main Engine Mounting & front cockpit support tube

Note: the front wheel strut is shipped on the main engine mounting bracket P8,N1. This must be removed prior to starting the assembly. For the jabiru, do not worry if the bracket looks a bit different from the manual.
